EXIDE BIKERZ VRLA

Exide Bikerz VRLA range of batteries has been specially designed for the new generation two-wheelers. Conforming to Japanese Standard JIS D5302, the batteries have special features that meet the arduous requirements of two-wheeler riding on Indian roads.

- Super-sealed and spill proof with virtually no possibility of leak
- Thicker Absorbed glass mat (AGM) separator with superior absorption and uniform compression makes the performance long lasting without water addition
- Acid starved condition minimizes destructive ultra deep discharges and enables plate from shedding ensuring longer life
- All acid is absorbed by special plates and AGM separators
- Use of Advanced Lead-Calcium technology which boosts up starting power without water loss
- Improved recharging efficiency with special paste recipe
- Improved charge recovery capability from deeply discharged conditions
- Superior component design gives longer shelf life and improved life cycle performance
- Extreme vibration resistance especially designed for rough roads
- Upgrade for motorcycles requiring the best performance
- Better cranking performance and low self discharge
- Available 'factory charged' ready to use

36 Month Warranty *
(18 FOC + 18 PRO-RATA)
* T&C Apply
