

## EXIDE E-RIDE TUBULAR PLUS

Exide E-Ride battery has been specially developed and designed for e-rickshaws after in-depth research. Its unique features ensure maximum performance which in turn translates to better savings for the e-rickshaw owner. It is far superior to other brands and comes with the assurance of quality and performance.

- > Rugged Tubular Positive plate - Suited for high power, deep discharge cyclic application
  - > Special Negative Paste recipe - To endure power surge and fast re-chargeability
- 
- > Special Alloy System - For fast charge acceptance and low top-up frequency
  - > Double Clad separation - Ensures vibration resistance
- 
- > Ready to fit - Batteries supplied in factory charged condition\*

7, 9, 12 Month Warranty \*

(FOC)

\* T&C Apply

### Technical Specifications of Exide E-Ride Tubular Plus Range of Batteries

Battery Type	Part Number	C20 Capacity (Ah)	C5 Capacity (Ah)	Warranty Period	Maximum Overall Dimensions (MM)			Nominal Filled Weight	Electrolyte Volume	Charging Current (A)
					L	W	H	(KG)	(LITRES)	
ERTBPLUS10000	FERO-ERTBPLUS10000	100	80	07 M	405	174	245	30.5 ± 0.5	7.3 ± 1%	12
